

PERFORMANCE CASES

SIDE PANELS

Showcase your System with Window Side Panels.

For those who plan to make a personal statement with their Performance case and want to show it off, Antec introduces a family of high clarity Window Side Panels. These lockable, scratch resistant, vented side panels come with an 80mm fan mount*. Let everyone see what you've done with your system.

* Fan not included on Window Side Panels

Beat the Heat with Fan-Vented Side Panels.

Heat is the #1 performance-robbing problem in your case. It reduces your components' lifespan- and eats into productivity, costing you money. And today's high-performance AGP and PCI cards are getting hotter all the time. What you need is an Antec Fan-vented Side Panel (80mm fan included). Put your case cooling where you need it most.

SF6F

For Beige 600 Series
Performance Cases

1.9 (W) x 49.5 (H) x 42.5 (L) cm
